

February 6, 2008

To Whom It May Concern:

Starting effectively *April 1, 2008* the City of Ozark, Missouri will be enforcing mandates from the State of Missouri on soil erosion and sediment control. It will be the responsibility all of permit holders to make sure that the soil erosion and sediment control is in place and maintained. The following items will be initiated in this process.

1. Soil erosion and sediment control measures must remain in place and maintained through the entire construction process.
2. Periodic inspection of the soil erosion and sediment control measures will be done by the City of Ozark, Missouri at any time. Failure to maintain soil erosion and sediment control measures could result in a stop work order and summons.
3. Soil erosion and sediment control measures will be monitored by Public Works, Building Department and the MDNR.
4. Sediment and debris must be contained to the site.
5. **NOTICE: THE PERMIT SERVES AS YOUR FIRST WARNING. NO OTHERS WILL BE GIVEN.**
